10.20-12.30 Simulation game

Scenario: In a NATO member state a third party is successfully operating with disinformation and fake news. The society has started to show hostility against the NATO troops operating in the country. The latest, and so far, most violent event was an attack against two soldiers while eating out, one suffered serious injuries. NATO is being accused of interfering into the country's internal affairs, the Government is pro-NATO but quickly losing ground to a new emerging anti-Alliance party and elections are just around the corner. How to change the tendencies and fight the accusations?

Participants: 20 university students from Hungary and 20 university students from Poland, representing NATO members, the NATO HQ, etc.
